

Sample House Party Invitation

House party hosts can personalize your invitation in any way that you like, including your own reasons for being involved in the issue of climate change. We recommend emailing or snail mailing your invitation and following-up with a phone call to get commitments to attend. You can also use Evite and/or create a Facebook event. Send the invitation 4-6 weeks prior to the house party date.

Shelby Sample

As a teenager I've already seen weather extremes associated with climate change like the abrupt changes in the Arctic region, detailed in a recent NOAA report. "*This should freak everybody out,*" according to an article in Mother Jones Magazine. The article referenced a conference that served as a stark, "reminder that, on its current path, civilization is engaged in an existential gamble with the planet's life-support system." I realize that it is up to me to help to shape my own, bright future. That's why I am doing a school project on climate change and I would like your help.

Scientists say we are facing an emergency situation with climate change and yet our political leaders are not taking action. Despite urgent calls from scientists, political protests from our citizens, and more extreme weather, no federal climate legislation has ever become law in the U.S.

Eighty-three percent of Americans want action on climate change. That is why Vote Climate U.S. PAC works to elect candidates to get off fossil fuels, transition to clean, renewable, energy and put a fee on carbon, in order to slow climate change and related weather extremes.

You are invited to a house party to hear more about the politics of climate change, what Vote Climate U.S. PAC is doing about it and how you can help:

Date: Sunday, February 14, 2016
Time: 2:00-4:00pm
Address: 123 East 12th Street, Baltimore, MD 21212
Phone: 444-555-6789 or 444-555-1011
Email: sample@gmail.com
Theme: A Valentine for the Earth

This is a fundraiser for Vote Climate U.S. PAC, so please bring your checkbooks in case you're impressed and want to help too!

Please RSVP by [2 weeks prior to event] by emailing or calling me. I hope you will be able to make it to help me with my project and with climate change! Thank you.
